LIGHT-COLOURED JEANS

WINTER

In a denim world of edgy black and summer white, grey makes for a happy medium. It's a refreshing change from typical blue, and the lighter shade delivers a cool, yet relaxed worn-in feel. Take your cue from our styling: contrast is key, and with the right amount of layering, you too can look like you've just stepped out of our style pages.

LIGHT-WEIGHT JACKET

WINTER

A bomber-style jacket is best for in between seasons: you can layer anything underneath, from a T-shirt to a shirt to a jersey. The earthy shade and texture of this jacket capture the season's outdoorsy attitude when layered over a casual hoodie. Or, dress it up with a button-down shirt and a knit tie.
